Mobile Interlocking Brick Making Machine

M7MI

This machine includes a compression chamber, diesel engine and pan mixer all mounted on a robust trailer for transport. This machine is ideal for remote areas/building sites where electricity is not available. Create Bricks with pure soil (Cement can be added), not concrete or aggregate required, utilize the damp soil around you to produce cost-effect bricks on the go, with no need for a fixed location.

Specs

Machine Specs	
Mobile Machine	✓
Avilable in	Diesel & Electric
Mixer	Built In
Compression Chambers	1
Skip Chute	-
Tow hitch	✓
Road tyres	✓
Machine weight	1560kg
Block Production	2470

Brick Production

Brick	Dimensions	Per Drop	Per Hour	Per Day

Interlocking Block 	275 x 120 x 220	1	274	2 470

*The above stated figures are the maximum theoretical production capacities based on the cycle times
