

## Large Hydraulic Egg laying Machine

# REL8-2

Hydraulic Egg layers produce bricks directly onto the ground no need for a pallet

## Specs

| Machine Specs       |                          |
|---------------------|--------------------------|
| Machine Type        | 380V Hydraulic Egg Layer |
| Recommended Mixer   | 350L-D                   |
| Cycle time          | 20-30s                   |
| Vibration Frequency | 12mPa                    |
| Overall Power       | 9.6kW                    |
| Overall Dimentions  | 2060 x 1700 x 2280mm     |

## Brick Production

| Brick               |                                                                                     | Dimensions      | Per Drop | Per Hour | Per Day |
|---------------------|-------------------------------------------------------------------------------------|-----------------|----------|----------|---------|
| 4 inch Hollow Block |  | 390 x 90 x 190  | 12       | 1 440    | 12 960  |
| 6 inch Hollow Block |  | 390 x 140 x 190 | 8        | 960      | 8 640   |
| 9 inch Hollow Block |  | 390 x 190 x 190 | 6        | 720      | 6 480   |

*\*The above stated figures are the maximum theoretical production capacities based on the cycle times*
