

IBR and Corrugated Roof Sheet Forming Machine

DOUBLE ROLL- FORMING MACHINE...

This machine is manufactured from high tensile steel and to the strictest standards using high precision welding. The heavy duty, high tensile steel, double columns are chromium plated for maximum life span. This machine lets you make IBR sheeting or Corrugated (one at a time) on the same machine.

ADVANTAGES OF OUR ROLL-FORMERS AS A START-UP COMPANY

- Simple manufacturing process (one manufacturing process).
- Easy administration (very few product lines and variations).
- High demand for product.
- Easy to market.

Specs

Machine Specs	
Suitable for rolling	Pre-painted galvanised steel 0.3 ~ 0.8mm thick
Cycle time	8-12m/min
Cut-off System	4kw double Hydraulic Cutting
Power	10kW
Machine weight	8400kg
Forming stations	13 Groups (top) - 21 Groups (bellow)
Driver Type	Chain - 6inches
Dimensions	
Dimensions	10 400 x 1 450 x 1 350mm
Included with purchase	
Included	925mm Decoiler (5T Max load Capacity)
Included	Guillotine
Included	Hydraulic Power Pack
Included	Delta PLC
