4x4 Utility Vehicle

WOLVERINE 550...

Built for South African farms, estates, and outdoor operations, the WOLVERINE 550 Petrol UTV delivers robust performance, versatile functionality, and dependable engineering. Whether you're towing, hauling, or navigating tough terrain, this utility vehicle is designed to handle it all with ease.

ENGINEERED FOR
POWER & EFFECIENCY

At the heart of the WOLVERINE550 is a 498.6cc 4-stroke, single-cylinder engine with liquid cooling and Electronic Fuel Injection (EFI). This setup ensures smooth power delivery, fuel efficiency, and consistent performance in all weather conditions. With 34 horsepower (25 kW) at 6300 RPM, the Farmboss offers impressive acceleration and torque, making it ideal for towing, climbing, and carrying heavy loads.The Electronic Control Unit (ECU) manages ignition and fuel delivery with precision, reducing emissions and improving engine longevity. The automatic transmission (L-H-N-R) simplifies operation, allowing drivers to focus on the terrain ahead.

Specs

General Specs	
Engine Type	Four-Sroke, Single Cylinder, Liquid Cooling
Horse Power	34HP
Rated Power	25kW
Driveline Type	Shaft Drive ; 2WD-4WD
Transmission	Automatic
Front Suspension	Double A-arm Suspension
Rear Suspension	Double A-arm Suspension
Front Brakes	Ventilated Hydraulic Disc
Rear Brakes	Ventilated Hydraulic Disc
Dry Weight	630kg
Wheelbase	1 880mm
Ground Clearance	290mm
Top Speed	85km/h
Gear Selection	L-H-N-R
Cooling System	Water Cooled

Fuel Type	Petrol
Fuel Supply	EFI
Dump-bed Capacity	250kg
Towing Capacity	375kg
Displacement	498.6cc
