

23.5 Ton Coal Pushing Bulldozer

T-REX224-7C...

The Revaro TT-REX224-7C is a 23.5-ton heavy-duty crawler bulldozer designed specifically for coal handling and bulk material operations. Powered by a reliable 175 kW engine, it delivers strong pushing force, efficient fuel consumption, and dependable performance in demanding environments such as power plants, ports, and stockyards.

Equipped with a high-capacity coal pushing blade, the T-REX224-7C is optimized for moving large volumes of loose material quickly and efficiently. Its robust undercarriage, durable frame, and ergonomic operator station ensure reliable performance and operator comfort during continuous heavy-duty operation.
